PROFILE

I'm a self-taught front-end developer, passionate about problem solving and utilizing cutting edge technologies to ship clean and efficient code. Whether planning for my next build or tackling a complex bug, I dive right in. Over the next few years, I would like to continually challenge myself and gain more experience in business, software, and technology.

EXPERIENCE

CRYPTOCURRENCY TRACKER

shouldicheckmycrypto.com / Web Application

Built from the ground up using React, this web app aims to give you a concise, easy to use interface to review and compare any of the top 100 cryptocurrencies available. It will also alert you upon arrival as to whether there has been a downturn in the market, in which case you might want to hold off on reviewing your charts for the time being.

- User stories planning and research.
- Designed and implemented responsive UI.
- Utilized complex API data with real-time updates.
- Fully integrated Chart.js charting library.

GENERAL MANAGER

Grounded Organic Coffee and Tea House / New York, NY / 2010 – 2017

This small coffee and tea house was written up in many editorials showcasing the best coffee shops in New York City. During my time as manager, sales increased dramatically, surpassing 1 million in yearly revenue.

- In charge of hiring and training of new employees.
- Daily ordering of goods and supplies essential for store operation.
- Implemented new POS system to accurately track sales and profits.
- Added a new time management system for employees in order to cut down on scheduling conflicts and unneeded overtime.
- Responsible for tracking payroll and communicating with payroll services.
- Handled all banking deposits and transactions.
